RESPONSE TO RESTRICTION REQUIREMENT

MS Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This is in response to the restriction requirement set forth in the Office Action mailed August 17, 2006 (Paper No. 20060807).

The Examiner has required restriction between the following inventions in the above-identified application:

- Group I encompassing claims 1-3 which is drawn to a fuel cell (classified in Class 429 Subclass 22); and
- Group II encompassing claims 4-6 drawn to a method of using a fuel cell (classified in Class 429, Subclass 13).

Accordingly, Applicants hereby elect Group I, claims 1-3 for continued examination, with traverse.

The Commissioner may require restriction if two or more independent and distinct inventions are claimed in a single application (37 CFR 1.142(a)). In the present case, although the claimed subject matter may be classified in different classes, the inventions are not

Application No.: 10/623,011

Docket No.: NGW-009

independent. Applicants respectfully assert that a single search of pertinent prior art would appear to suffice for all aspects of the invention. Specifically, the various Groups appear to be so interrelated that a single examination would not appear to place a serious burden on the Examiner. Therefore, Applicant urges the Examiner to reconsider and withdraw the restriction requirement.

Accordingly, it is respectfully requested that the restriction requirement be withdrawn, and that all of the claims presently pending in this application be examined.

Dated: September 15, 2006

Respectfully submitted,

By 
Anthony A. Laurentano
